

MURASOLIMARAN E

AI & Data Science Engineer

+91 9361437723 | murasoli2846@gmail.com | Chennai, Tamil Nadu | linkedin.com/in/murasoli-maran | github.com/murasolimaran-ai

PROFESSIONAL SUMMARY

Final-year B.Tech Information Technology student (expected graduation June 2026) with hands-on experience in Python, Machine Learning, Natural Language Processing, and Full-Stack AI application development. Proven ability to build end-to-end AI solutions including RAG-based chatbots, disease prediction systems, and intelligent agriculture decision-support platforms using Flask, Pandas, NumPy, and Scikit-learn. Completed two industry internships in AI and Data Science. Passionate about applying emerging AI technologies to solve real-world challenges.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web Technologies: HTML, CSS, JavaScript, Flask

Machine Learning & AI: Supervised Learning, Classification, Regression, NLP, Retrieval-Augmented Generation (RAG), Deep Learning

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, TensorFlow

Databases: MySQL, MongoDB

Data Visualization: Power BI, Microsoft Excel

Developer Tools: VS Code, Jupyter Notebook, Google Colab, Git & GitHub, MongoDB Compass

Soft Skills: Communication, Problem Solving, Teamwork, Workshop Facilitation

INTERNSHIP EXPERIENCE

Data Science Intern — *OneYes Infotech Solutions Pvt. Ltd., Chennai*

Oct 2025 – Dec 2025

- Worked on applied AI and Data Science projects in a professional, real-time development environment.
- Strengthened skills in Machine Learning model development, data preprocessing, and end-to-end project execution.
- Collaborated with cross-functional team to deliver data-driven solutions, improving analytical thinking and project delivery skills.

Artificial Intelligence Intern — *Hackwit Technologies Pvt. Ltd., Chennai*

Jan 2025 – Feb 2025

- Designed and developed a Medicine Recommendation System using supervised Machine Learning; implemented symptom-to-disease prediction model.
- Built a complete ML pipeline covering data cleaning, feature engineering, model training with Scikit-learn, and Flask-based API deployment.
- Applied Python-based AI techniques to a healthcare domain problem, enhancing practical application development and problem-solving skills.

PROJECTS

Intelligent Agriculture Decision Support System Using AI

Python | Machine Learning | Flask | HTML | CSS | JavaScript

- Built an AI-powered crop advisory platform providing intelligent farming recommendations through supervised ML classification models.

- Integrated data preprocessing, model inference, and a Flask REST API to deliver real-time agricultural decision support to end users.

Medicine Recommendation System

Python | Scikit-learn | Pandas | NumPy | Flask

- Developed a symptom-based disease prediction engine and automated medicine recommendation system using multi-class classification.
- Engineered full ML pipeline: data acquisition, preprocessing, feature selection, model training, evaluation, and Flask API deployment.

RAG-Based Company Policy Chatbot

Python | NLP | Retrieval-Augmented Generation (RAG) | Flask

- Designed a Retrieval-Augmented Generation chatbot to answer employee queries directly from company policy documents with high accuracy.
- Implemented intelligent document indexing and context-aware question-answering to improve organisational policy accessibility.

Password Manager System

Python

- Built a secure command-line password manager supporting encrypted credential storage, retrieval, and management using Python.

Car Showroom Website

HTML | CSS | JavaScript

- Developed a fully responsive, multi-page car showroom website with interactive UI components, animations, and seamless page navigation.

EDUCATION

B.Tech in Information Technology

2022 – 2026

Sathyabama Institute of Science and Technology, Chennai | CGPA: 6.85 | Expected Graduation: June 2026

Higher Secondary Education (12th) — Computer Science Group

2020 – 2022

Model HR Sec School, G.Ariyur, Kallakuruchi | Tamil Nadu State Board | Percentage: 66%

Secondary School Education (10th)

2019 – 2020

Model HR Sec School, G.Ariyur, Kallakuruchi | Tamil Nadu State Board | Percentage: 52%

CERTIFICATIONS

- Introduction to Generative AI Certification
- Machine Learning – Dimensionality Reduction Certification (*IBM Cognitive Class*)
- Data Science Internship Certification — OneYes Infotech Solutions Pvt. Ltd.
- Artificial Intelligence Internship Certification — Hackwit Technologies Pvt. Ltd.

ACHIEVEMENTS

- Developed AI-powered Agriculture Decision Support System, applying Machine Learning to real-world smart farming challenges.
- Built a production-ready RAG-based chatbot for automated company policy information retrieval and Q&A.
- Created a Python-based secure Password Manager with full credential lifecycle management.
- Conducted a hands-on workshop on Graphic Design, training peers in practical design tools and industry workflows.
